About

Sunset Rangers takes the excitement and perils of the Wild West and turns them into an open world sandbox game meant to be explored and conquered. Choose between multiple classes and build a custom character, which you can use to complete quests, collect and craft materials, and build bases.

The expansive game allows you to explore a vast open world full of arid deserts, elaborate canyons, and lawless towns. Sunset Rangers immerses you in the rugged Wild West as you're forced to survive against the elements, arming yourself with a wide array of unique guns, each with special abilities.

You play solo or build a server and team up with friends as you brave this untamed world, but be careful, not everyone can be trusted, and actions such as killing come with consequences.

game simple dont live up to stability as a MP game.

and to stay in refund steam policy, im out faster then lightning. Do not buy! Game is no where close to finished. I could be a fun game. But nothing like forest, rust or normal survivial games where you can handle say.. an axe. An then just run to a tree and chop it. This game you can only cut trees it allows to cut the trees is says you can. Same with shovel. The games graphics arent that bad. But the crafting and inventory system looks like something out of a game from the late 90's. There are 4 servers online. Started game in the dark. Walked 10 feet and got bit by snake.. started shaking horribly with red blood shading the screen. Attempted to run towards a house and was imediatly shot and killed by a bot that strafes back and for at unrealistic speeds. 1st and only time i refunded a game.. Good Potential... But, unfinished. Needs more work.. extremely buggy & laggy; not worth any money. I walked to first town and then one of the NPCs decided to block a door trapping me inside of a building. I had to punch him to get him to move. the entire town turned on me and labeled me a bandit and killed me. This title carried over after I respawned.

Ok.
